

Kleos BB200 executive swivel chairs are defined by a wide choice of colors, the exquisite upholstery care and the wide variety of ergonomic adjustments to offer excellent comfort throughout the day.

The **BB219** executive chair has been designed for executive offices, and especially dedicated to a woman's sensibility. It is equipped with a mechanism which controls the synchronous movement of seat and backrest with a 2.7:1 ratio, whose resistance can be individually adjusted to the weight of the person, from 45 to 120 kg. The mechanism provides different locking positions up to 25° of inclination of the backrest while the seat can also be tilted forward by 3°. The seat and back are padded with high-density polyurethane foam cushions and covered in European bovine leather with a beautiful aged effect. The depth of the seat is adjustable with a stroke of 100 mm. The 520 mm backrest is also upholstered on the back, height-adjustable and with built-in lumbar support. Height and width of the armrests are adjustable, along with the the depth of the support, which can be rotate by $\pm 30^\circ$. The supporting structures are all in polished aluminum. The 60 mm diameter wheels, in a free or braked version, are both available for hard floors or for soft surfaces on request.

Kleos BB219 Technical data

Synchronized mechanism

- Shell in black painted aluminum and polypropylene
- 2.7:1 inclination ratio back / seat
- Seat height-adjustment device
- Backrest inclination device from 0° to 23° with three locking positions
- 3 ° forward seat inclination device
- Back pressure device of the backseat for body weights from 45 to 120Kg manually adjustable
- Integrated rail for sliding seats

Seat

- Made of polypropylene composed of two shells
- Seat width 455 mm
- Seat depth 445 mm
- Sliding on rail, 100 mm stroke
- Foamed cushion in flexible polyurethane
- Standard version in black fabric

Backrest

- Made of polypropylene composed of two shells
- Backrest height 520 mm
- Height regulator, stroke up to 75 mm
- Foamed cushion made in flexible polyurethane
- Integrated lumbar support in the height-adjustable backrest
- Upholstery in ground-colored European bovine leather, even behind the backrest

Backrest support

- Connects the mechanism with the backrest allowing movement synchronized seat-backrest, polished aluminum support
- Polished aluminum support
- Integrated guide for backrest sliding

Armrests

- Polypropylene arm support
- Structure in polished die-cast aluminum
- Support (PAD) in integral soft polyurethane 230x115 mm

- Adjustable in width, stroke per side, up to 35 mm
- Adjustable in height, 100 mm stroke
- Longitudinal adjustable support - travel ± 30 mm
- 30 ° rotating support in 15 ° steps

Base

- In polished aluminum
- 5-spoke cross
- Diameter 710 mm
- Height 64 mm

Piston

- Built in steel
- Chromed
- Height-adjustable

Casters

- Five polypropylene casters
- Diameter 60 mm
- Free or braked in the absence of load, available for hard or soft floors

Leather upholstery

- 100% polyester
- Weight 390 g / m²
- Martindale wear resistance (DIN EN ISO 12947-2) 150,000 rounds
- Fire resistance certificate BS 5852 PART 0 California 117

Regulations

- DIN EN 1021
- DIN EN 1335
- DIN EN 12527
- DIN EN 12529
- ISO 21015
- ANSI/BIFMA X5.1

Dimensions

Leather

Category 2

Kleo-Pel Vintage leather is made from European bovines, with a medium thickness of 0.9 mm. It has excellent resistance to rubbing, to any tears and bending. It is in compliance with the safety regulations about the resistance to cigarette and small flame. Periodic cleaning with a cloth dampened with cleansing milk is recommended.
